Meeting Minutes - 6th July

Attendance By Tian YU

5 people attended the meeting.

Regarding Joel's requirements:

1. **Web Style Changes**:
   - Addition of horizontal and vertical lines.
   - The view of "year" and "term" should be determined by credits.
   - "By module" view requirements:
     - Addition of arrows.
     - The size of the assessment should correspond to the credits.
     - Font overlap bug.
     - Removal of the year's horizontal bar.
   - When the mouse hovers over an "event", the following should appear:
     - Specific start and end.
     - If it's an exam, the specific time of the exam.
     - Location, if it's an exam.
   - When the mouse clicks, the previously mentioned information should appear along with a summary and feedback.
2. The "term" view's data must come from the actual database.
3. Website deployment needs to be achieved.
4. Send an email to svs-comms to inquire about visa matters.
5. Rehearsal before every meeting to avoid the immature situation that occurred in the last meeting with the teacher.
6. Unify the front-end network to use Material UI.
7. In the next meeting, summarize the required data interfaces for Simon.
8. Remember to record the next online meeting.
9. Study the official school calendar and think about how to extract data.

Task distribution

Please refer to the Jira screenshot attached for the task distribution.

DDl : 2023.7.13 12:00

update year and term view

☑ HEAT-37   HW

material ui tutorial
